TO WHOM IT MAY CONCERN,

As music teacher of St. Patrick's High School, I would like to acknowledge the generous gift that Stephen McDermott has made to our music program. Namely, he donated two *Kramer Focus* electric guitars in June 2007.

These two instruments are new, straight out of the box. They have captured the attention and awe of many of our students. Since September, I have been able to use these electric guitars to keep some less fortunate students (unable to afford their own instrument, problems at home, etc.) interested in coming to school every day just so they could play these guitars! Furthermore, the acquisition of these instruments will contribute to the building of both our guitar program and our stage band program.

Our administration and I are very grateful to Mr. McDermott for his patronage of our music program and school community. Indeed, these guitars will be well used in the many concerts our students perform in the future!

Sincerely,

John Yemensky
Music Teacher
